Opportunities

Mentoring Within Your Field
Work Experience
Career Exploration
Professional Development
Academic Support

I have gained hands-on experience through SEEDS that has built the necessary skills and knowledge that I can use in my future career goals and aspirations.

Strengthening Education & Employment for Diverse Students
We envision a student body that reflects our diverse population.

The SEEDS mission is to support diversity student recruitment efforts within college-bound populations, retain our diversity students by improving the quality of experiences they have while here, and provide a pathway to career-track employment as they finish their academic program.

You Will Work With:
- Nationally acclaimed teachers
- World-renowned scientists
- Faculty who write the books that we and other universities use
- Faculty who have shaped forest policy in North America
- People thinking of you

You Will Develop Skills:
- Problem-solving
- Decision-making
- Collaboration and teamwork
- Communication
- Professional, personal, and work ethics
- Creative thinking, entrepreneurship
- Expertise in your chosen area

With the Support of:
- Excellent, caring faculty & staff
- SEEDS Program Coordinators
- Cohort of diverse students

Welcome to College of Forestry

With creative programs, such as SEEDS, students gain valuable work experience and training in the field that is needed and will help them after graduation.
